Monroe Institute Technologies Feedback

Experiences Related to Financial Success

This information was reported to Monroe Products and The Monroe Institute by individuals and/or by professional practitioners about the use of Hemi-Sync® in the late 1990s.

A consulting firm for financial industries features *Hemi-Sync* in a workshop on the psychology of successful trading in the stock and futures markets. With the help of Hemi-Sync, traders learn mental techniques to monitor their thoughts to determine if they are in states that are most conducive to giving themselves money. Traders learn to use H-PLUS *De-Hab* to neutralize dysfunctional thoughts.

Hemi-Sync® is a registered trademark of Interstate Industries, Inc.
